Heavy Vehicle Maintenance for Regional Passenger Rail – West Melbourne

With 61 production and engineering sites and 18 service centers in 28 countries, Bombardier Transportation is a global leader in the rail industry. Covering the full spectrum of rail solutions, ranging from complete trains to sub-systems, maintenance services, system integration and signaling. Bombardier's installed base of rolling stock exceeds 100,000 rail cars and locomotives worldwide. With a 39,400 strong global workforce, Bombardier continues a proud tradition of delivering ingenious rail transportation solutions, including:

- **Rail vehicles** - automated people movers, monorails, light rail vehicles, advanced rapid transit, metros, commuter/regional trains, intercity/high-speed trains and locomotives
- **Propulsion and controls** - complete product portfolio for applications ranging from trolley buses to freight locomotives
- **Bogies** - product portfolio for the entire range of rail vehicles
- **Services** - fleet maintenance, operations and maintenance (O&M), vehicle refurbishment and modernization, and material management
- **Transportation systems** - customized "design-build-operate-maintain" transportation system solutions
- **Rail control solutions** - advanced signaling solutions for mass transit and mainline systems

Bombardier Transportation has enjoyed a 60+ year presence in Australia with more than 1000 employees working across in 22 locations.

With established maintenance facilities in the cities of Melbourne, Perth, Brisbane, Gold Coast and Adelaide servicing current projects, Bombardier's West Melbourne heavy maintenance facility maintains the V/Line regional fleet, which includes the state of the art VLocity DMU, and V/Line's legacy sprinter DMU's, locomotives and locomotive hauled fleet.
